DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it always that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Six Bulgarians Murdered.

As was stated in the Gazette, six murdered Bulgarian laborers were found yesterday in an old house at 245 Tenth avenue south, Minneapolis, Minn., and the police are uncertain how or when the murders were committed, although the evidence thus far secured indicates that the men were killed during a fight among 12 Bulgarians, who had rented the house.

The police are convinced that robbery was not the cause of all the murders, as considerable money was found on the bodies. They also suspect the idea of any secret society with motives of revenge.

Four of the bodies, horribly cut and slashed with knives, were found in a room on the second floor, while in the cellar were two others with their throats cut. Near the bodies were found five large bowie knives and a hatchet.

J. Micklenberg, a drayman, says that Monday afternoon six men asked him to take six packages from the house at 245 Tenth avenue south to the Union Station. On arriving at the house he found there were 12 packages, and after some haggling about the price he took them to the station.

A young man rode on the wagon, while the other five men walked. The man who rode said the party was going to Duluth. At the station he noticed that the men from the house were joined by several other men, a woman and a little girl. From this statement the police believe that the murders were committed some time between midnight Sunday and Monday morning.

S. Magnuson, owner of the house, says that an Italian rented part of the house of about four months ago, paying four months' rent in advance, the house to be used by 12 railroad laborers, of whom he was foreman. The 12 men moved in and lived quietly, working every day. The men lived, slept and ate their meals in the rooms on the second floor. The Italian foreman was never seen again by Magnuson.

Yesterday morning an old German who occupied the first floor of the house told Magnuson that a fight had occurred in the upper rooms Sunday night. The German said he had paid little attention to the fight until he noticed that the occupants of the second floor had gone. After informing Magnuson of the fight, the German disappeared.

Magnuson informed the police that a murder had probably been committed in the house, and the police broke into the Bulgarians' lodgings. The two bodies in the basement, according to Coroner Kistler, had been dead nearly two days. Those in the upper rooms appeared to have been killed more recently.

The police say that the men found in the basement may have been murdered for their money, and that a fight followed upstairs over a division of the spoils. The bodies found upstairs were slashed all over, especially about the face and the throat.

One man had fallen against a hot stove and the right side of his face was burned off. Beside this man lay the bloody hatchet. Near the bodies found upstairs were two money belts, containing \$506 in gold. On one of the bodies was found a watch that was still going. Some of the bodies had been stripped.

Aside from the foregoing facts the police have no information on which to work, although many unverified rumors are under investigation.

In two satchels found in the house was a regalia, consisting of caps, robes and handkerchiefs, containing characters and emblems which it is thought may have belonged to an order of the Greek Church. There were also several religious emblems and a picture of a saint on the other. There were two sets of linen, robes and caps, on which sacred pictures were crudely printed.

High License in Ohio.

It is estimated that between 10,000 and 15,000 men may be thrown out of employment by the enforcement of the Aiken liquor law, which raises the cost of the license from \$850 to \$1,000, passed Tuesday by the Ohio legislature, according to one authority. The 5,000 proprietors of the saloons that will close will be out of employment. At least half of them have barkeepers, making 2,500 more. Many porters and men who get up saloon lunches will lose their places. Brewery drivers and other workers at breweries will also suffer.

Representative Aiken estimates that the gain in the State revenue will be about \$3,450,000, three-tenths of which goes to the State.

Among the saloons in Ohio that it is estimated will close, 1,974 are distributed as follows: Cincinnati, 400; Cleveland, 400; Columbus, 350; Toledo, 375; Springfield, 70; Dayton, 200; Youngstown, 180; Hamilton, 105; Zanesville, 75; Canton, 100; Akron, 75; Norwalk, 12; Lima, 18; Piqua, 14.

The State Auditor's statement as to the Dow liquor law collections for January, 1906, the last under the \$850 license, shows the following comparison with the last preceding collection: Number of saloons in Ohio July, 1905, 12,934; general revenue in State 1905 (whole year), \$1,296,582; number of saloons January, 1906, 13,009.
